

ECOPART 24

Release agent for cold-curing processes

Product Properties

ECOPART 24 is a release agent for cold-curing processes. ECOPART is suitable for furan, phenolic as well as ester-cured resins. The viscosity setting permits both a brush-on and spray-on processing. The product is free of either chlorinated hydrocarbons and/or chlorofluorocarbons. Styrofoam patterns do not react with ECOPART after short-term exposure.

Analytical values

- Modified waxes in highly volatile hydrocarbons
- State: Liquid
- Color: White
- Odor: hydrocarbons
- Solids content: 3.3 – 4.3 %
- Flash point DIN 51755: approx. -12

Storage & Handling

- Product Storage Conditions: 24 months (storage temperature between 15 and 30°C)
- Shake or stir before use
- Keep away from sources of ignition
- NO SMOKING
- Ensure good room ventilation

Packaging

- Canister: 8 kg
- Steel can: 16 kg
- Labelling: Please refer to the Safety Data Sheet
